## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 7-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Auman et al US# 4586584.

Auman et al disclose all the limitations of the instant claims including; detecting whether a pressure in the first brake circuit is below a first limit value, detecting whether a pressure in the second brake circuit is below a second limit value, and activating the emergency brake function when the pressure in the first brake circuit falls below the first limit value at the same time as the pressure in the second brake circuit falls below the second limit value by blocking off fluid pressure supply to a pressure-actuated emergency brake. Note valves 254 and 256 block pressure to the spring brakes and vent the pressure in response to the pressure dropping below 60 psi which is mechanically detected by the valve pilot which functions as a pressure sensor.

### ***Allowable Subject Matter***

Claims 2-6 are allowed.

***Response to Arguments***

Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
